Experience

Data Analytics Intern | **Bruce Power**

May 2025 – August 2025

- Regulatory Affairs Department

Software Engineer | **Laurier Computing Society**

January 2025 – April 2025

- Building an **interview scheduling** platform for Laurier clubs with department-based candidate matching
- Implementing a **real-time scheduling** system for smooth coordination between interviewers and candidates
- Building an **interview scheduling** platform for Laurier clubs with department-based candidate matching

App Developer | **Pagent.tv**

December 2024 – March 2025

- Created frontend UI components with **TypeScript**, ensuring responsiveness across iOS and Android platforms
- Improved user experience with animations and gesture-based interactions using **React Native**
- Worked with frontend team to convert **Figma** wireframe into functional mobile layouts, ensuring design consistency

Projects

Daily Dose of Tech | **twitter.com/DailyDoseOfTech**

Python, Tweepy, PRAW, AWS Lambda

- Developed a **Twitter bot** that tweets out trending news content selectively scraped from Reddit pages
- Automated** tweeting content using an **AWS Lambda** function that calls **Twitter's API** to post curated content daily
- Enabled **filtering** for the most relevant news by analyzing scraped article data using the **Reddit API**
- Attained **10,000+ organic impressions** through automated tweets

AniCollection | **anicollection.org**

ReactJS, Jikan API, Firebase, Firestore

- Built a web app to enable users to create and share **collaborative** anime collections using **ReactJS** and **Firebase**
- Enabled users to **sync** their collections in real-time with Firebase for **user authentication** and a Firestore **database**
- Allowed users to browse a live anime **database** by leveraging the **Jikan API** to **search** anime by key words
- Created a **responsive** and accessible user experience across desktop and mobile using **CSS**

Eventify | **eventify.one**

ReactJS, Spotify Web API, TicketMaster Discovery API

- Created a web app to allow users to view upcoming events for their top artists by connecting their Spotify account
- Provided users upcoming events from **Ticketmaster API** retrieved from their top artists using **Spotify's Web API**
- Enabled users to **add events** to their calendars from Eventify to Google and Apple apps using a React library

Awards

Anne Marie Feddema Memorial Computer Science Award

October 2024

Received bursary for academic performance and technical skills in Computer Science

Wilfrid Laurier University Entrance Scholarship

June 2024

Received \$3000 scholarship based off 4.0 High School GPA

Education

Wilfrid Laurier University

Sept 2024 – Apr 2029

Bachelor of Computer Science & Business Administration Double Degree, Co-op

Waterloo, ON

Skills

Languages Python, Java, JavaScript (ES6), HTML5, CSS, Tailwind, TypeScript, SQL

Tools & Libraries React, Amazon Web Services, Firebase, Firestore, MongoDB, NodeJS, Express, Git, Figma, PowerBI
